

Meeting Notes:

- Go to the www.architecture2030.org website and register your name for the 2030 challenge pledge.
- 2030arch.wordpress.com for the AAU blog.

Studio Lifestyle:

- Start recycling, start double siding our prints. Paper usage.
- Rivalry between studios for bringing down paper use.
- Model making 50% of models to be made from local, recycled, or sustainable materials. Start doing it now.
- Composting started getting looked at a year ago, and now there are bins coming for both bathrooms and for the woodshop.
- Compile a list of resources and find better suppliers and supplies.
- Energy wasting – we have no operable windows for the Brannan building.
- Transportation – carpooling and material transportation together or alternating. Public transportation day.
- How do people use the plugs everyday? How much energy is used by having our laptops plugged in all the time?
- Website: Carpool trips, locations, times, and where is the destination.
- Laser Cutting: Tech people with skills and emails.
- A formal letter to get people to come in to talk to us about their projects.
- Passive housing group in the East Bay.
- Booklist: Any links, pdfs, books, pamphlets that pertain to sustainability. (Inhabitat blog)
- LEED study group every other week. \$150 or \$200 for students (green associate exam).
- LEED – all about memorizing the answers than it really is about comprehension.

Competitions:

- USGBC - Salvation Army competition in New Orleans, LEED Platinum housing, \$100,000 budget, 880 s.f.. Deadline 10 days after finals. (Look at Make it Right, New Orleans).
- Sponsorship for the Solar Decathlon, finding a company to sponsor us.
- 601 Brannan remodel?
- Oneprize competition, goes from a single building to a city block, and possibly submitting 601 remodeling?
- Featured student green project for the Spring Show.
